Version Date: 23 November 2025

1. General

1.1 Purpose and scope

1.1.1 The Trading Rules seek to enable the Exchange to exercise a principal function, which is to provide a fair, orderly and transparent market for the trading of Securities on the ADDX Platform.

1.1.2 The Trading Rules set out the requirements and obligations that govern the operation of the ADDX Platform and which apply to all Participants and Issuers. Each of the Participants and Issuers agrees that acceptance of, and compliance with, the Trading Rules is a condition for admission to and participation on the ADDX Platform. Failure by a Participant or Issuer to comply with the Trading Rules (or any part thereof) or with any decision of the Exchange made pursuant to the Trading Rules shall constitute a breach of the Trading Rules.

1.2 General principles

1.2.1 The Trading Rules seek to secure and maintain confidence in the market. The general principles behind the Trading Rules are that the:

- (a) operation of the ADDX Platform is transparent and fair to all Participants and Issuers; and
- (b) trading of Securities shall be conducted in a fair and orderly manner.

1.2.2 In the observance of the Trading Rules and in areas or circumstances not explicitly covered by any Rule, all Issuers and Participants shall guide themselves not only by the letter but also the spirit of the Trading Rules.

1.3 Administration of rules

1.3.1 The Trading Rules are interpreted, administered and enforced by the Exchange, and the decisions and requirements of the Exchange are conclusive and binding on the Participants and Issuers. In the event of any inconsistency between parts of the Platform Requirements, such inconsistency will be resolved by the Exchange, and such resolution is conclusive and binding on the Participants and Issuers.

1.3.2 The Exchange may, from time to time, issue practice notes to provide guidance on the interpretation and application of any rule, or to provide a more detailed prescription of a rule. Such practice notes shall be published on the ADDX Platform and will take effect from the date of publication, or such later date that the Exchange may specify, unless and until such practice note is specified to be revoked by the Exchange. The Trading Rules are to be read together with any such practice notes. It is the responsibility of Participants and Issuers to regularly check the ADDX Platform for practice notes issued by the Exchange, and comply with the same.

1.3.3 The Exchange may impose additional requirements on any or all Participant(s), or make the trading of any or all Securities subject to special conditions whenever it considers it appropriate.

1.3.4 The Exchange may establish committees or appoint such persons to monitor and enforce the Trading Rules, or to otherwise assist in the operation of the ADDX Platform, and may delegate any power or role that it holds under the Trading Rules to any such committee established or person appointed.

1.4 Waiver of rules

1.4.1 The Exchange may at its discretion waive or modify compliance with a rule either generally or to suit the circumstances of a particular case. The Exchange may grant a waiver subject to such conditions at its discretion.

1.4.2 A Participant or Issuer seeking a waiver must submit to the Exchange a request for waiver which must:

- (a) be made in writing and addressed to the Exchange;
- (b) be made at least 10 Business Days before the proposed waiver is sought to take effect;
- (c) contain the reasons for seeking the waiver; and

 - (b) a breach of, or act of misconduct under, the relevant rule in force at the time that breach or misconduct occurred,

may be instituted, continued or enforced, and any disciplinary action or penalty in respect of such breach or act of misconduct may be imposed and carried out by the Exchange, as if the relevant rule had not been amended or deleted.

- 6.8.4 After permission is granted by the Exchange, the Issuer shall call for a trading halt and announce the intended Securities delisting to Participants via the ADDX Platform.
- 6.8.5 In the event an Issuer wishes to voluntarily delist any class or series of Securities:

- (a) the proposal to delist the Securities must be approved by a majority of at least 90% of the total number of affected Securities held by voting Participants; and
- (b) the Exchange may specify additional conditions or vary the conditions of this Rule 6.8.5 at its discretion in connection with the proposed delisting. Such additional or varied conditions shall be notified by the Issuer to Participants on the ADDX Platform.

6.8.6 Where the conditions in respect of the proposed delisting are satisfied such that the Securities delisting takes place, on the effective date of the delisting of the Securities, holders of the delisted Securities will have the Securities removed from their account on the ADDX Platform. In the event that the Issuer has conducted a Securities buy-back offer in conjunction with such delisting, holders who have had their Securities repurchased will receive the commensurate amount of cash balance (in accordance with the accepted Securities buy-back offer) credited to their account balance on the ADDX Platform.

6.9 **Involuntary Securities delisting**

6.9.1 *Involuntary Securities delisting due to Participant action*

- (a) Where the requisite percentage of Participants have, in accordance with the applicable Securities terms and conditions, exercised their discretion to cause the Securities to be delisted, the affected Issuer shall forthwith send a written notice to the Exchange of such an occurrence and the impending delisting of the Securities.
- (b) On receipt of the written notice under Rule 6.9.1(a), the Exchange may require from the Issuer additional information.
- (c) The Issuer shall call for a trading halt and announce the intended Securities delisting to Participants via the ADDX Platform.
- (d) On the effective date of the delisting of the Securities, holders of the delisted Securities will have the Securities removed from their account on the ADDX Platform.

6.9.2 *Involuntary Securities delisting due to ADDX sanction*

- (b) Where the conditions imposed by the Exchange pursuant to Rule 6.9.2(a) are satisfied such that the Securities delisting takes place, on the effective date of the delisting of the Securities, holders of the delisted Securities will have the Securities removed from their account on the ADDX Platform. In the event that the Issuer has conducted a Securities buy-back offer in conjunction with such delisting, holders who have had their Securities repurchased will receive the commensurate amount of cash balance (in accordance with the accepted Securities buy-back offer) credited to their account balance on the ADDX Platform.

- 6.10.1 A Participant shall be solely responsible for all activity that takes place under its trading account, whether authorised by the Participant or not.
- 6.10.2 Any action performed from a Participant's trading account shall be treated by the Exchange as the action of such Participant acting solely on its own behalf, whether authorised by the Participant or not.
- 6.10.3 The Exchange shall not be liable for any loss or damage arising from unauthorised use of any Participant's trading account.
- 6.10.4 Each Participant must honour all orders placed through its trading account and all transactions executed involving its trading account, unless and until reversed or otherwise reversed by the Exchange. All orders and transactions shall be governed by the Platform Requirements.
- 6.10.5 A Participant acts as principal as regards the other Participant for each transaction executed by them or purported to be executed by such Participant on the ADDX Platform.

6.10.6 A Participant who uses any application programming interface (“**API**”) feature of the ADDX Platform acknowledges and agrees that:

- (a) it will ensure that its own systems and connections to the ADDX Platform via the API feature operate properly at all times and have adequate redundancy and scalable capacity to accommodate current and anticipated trading volume levels;
- (b) it will not access the API feature in any manner that (i) compromises, breaks or circumvents any of the technical processes or security measures of the ADDX Platform; or (ii) poses a security vulnerability to any user of the ADDX Platform; or (iii) tests the vulnerability of the ADDX Platform’s systems;
- (c) it will not attempt to reverse engineer or otherwise derive the source code, trade secrets or know-how of the API feature;
- (d) it will not attempt to use or use the API feature in a manner that constitutes excessive or abusive usage;
- (e) the API feature is provided on an “as is” and “as available” basis. The Exchange makes no representations or warranties in relation to the API feature, including but not limited to any representation or warranty as to the accuracy, completeness, reliability, service levels, continued availability, timeliness, non-infringement, title, quality or fitness for any particular purpose of the API feature to the fullest extent permitted by the law;
- (f) to the extent permitted by law, the Exchange shall not be liable to a Participant or any third party whether in contract, tort (including negligence), restitution, breach of statutory duty or otherwise, for damage or loss of any kind arising directly or indirectly from a Participant or any third party’s use of, or inability to use, the API feature;
- (g) it will install any updates, upgrades, modifications and/or patches to keep its installation of the API feature updated to the most recent release. - (i) the Exchange may, in its sole and absolute discretion, at any time and without assigning any reason, suspend or terminate such Participant’s access to and use of all or part of the API feature, with or without notice; and
- (j) it will ensure that it has in place a multi-factor authentication system (“**MFA System**”) at login to secure the Exchange’s customer authentication process at all times for usage of the ADDX Platform via the API feature and that the MFA System is in compliance with the rules, regulations, notices and guidelines set out by the Monetary Authority of Singapore in relation thereto.

7. Prohibited trading conduct

- 7.1 The Exchange will not tolerate conduct such as market rigging or market manipulation (including spoofing and layering), insider trading, fraudulent conduct, acting in bad faith, knowingly disseminating false or inaccurate material information, reporting false trades, and disclosing confidential information. Attempts to engage in any such prohibited conduct will also not be tolerated.
- 7.2 Each Participant and Issuer shall not engage in any conduct that is prohibited under:
 - (a) Division 1 (Prohibited Conduct – Capital Markets Products) of Part XII of the SFA; and
 - (b) Division 3 (Insider Trading) of Part XII of the SFA.
- 7.3 For avoidance of doubt, the Trading Rules, including Rule 7.2, are interpreted, administered and enforced by the Exchange, and any decision by the Exchange as to whether Rule 7.2

and/or other provision of the Trading Rules is breached by a Participant or Issuer is conclusive and binding on such Participant or Issuer, as the case may be, and such Participant or Issuer shall not challenge or dispute the validity of such decision and the Exchange shall not be obliged to give any reasons for its decision.

7.4 The following non-exhaustive factors are relevant when considering whether an act or practice may breach Rules 7.1 and 7.2 above:

- (a) whether the proposed transaction will be inconsistent with the history of, or recent trading in, the Securities;
- (b) whether the proposed transaction will or may cause or contribute to a material change in the market for or the price of the Securities, and whether the person involved or another person with whom the first person is collaborating may directly or indirectly benefit from alterations in the market or price;
- (c) whether the proposed transaction involves the placing of multiple buy and sell orders at various prices higher or lower than the market price, or the placing of buy and sell orders which give the appearance of increased volume;
- (d) whether the proposed transaction will coincide with or is likely to influence the calculation of reference prices, settlement prices and valuations;
- (e) whether parties involved in the proposed transaction are connected;
- (f) whether the buy and sell orders are to be entered at about the same time, for about the same price and quantity (excluding direct business);
- (g) whether the proposed transaction will or may cause the price of the Securities to increase or decrease, but following which the price is likely to immediately return to about its previous level;
- (h) whether a proposed bid (offer) is higher (lower) than the previous bid (offer) but is to be removed from the market before it is executed;
- (i) whether the volume or size of the proposed transaction is excessive relative to reasonable expectations of the depth and liquidity of the market at the time;
- (j) whether the proposed buy (sell) order is likely to trade with the entire best offer (bid) volume and part of the offer (bid) at the next price level;
- (k) whether the proposed buy (sell) order forms part of a series of orders that successively and consistently increase (decrease) the price of the Securities; and
- (l) whether there appears to be a legitimate commercial reason for the proposed transaction.

7.5 Each Issuer and its directors and key officers should not deal in the Issuer's Securities during the period commencing one (1) month before the announcement of the Issuer's half year and full year financial statements.

8.	Suspension or termination of trading account
-----------	---

8.1 A Participant may request to voluntarily terminate its trading account on the ADDX Platform by submitting an account termination request in the form prescribed by the Exchange, provided that the Participant does not hold any Securities at the time of the request and the Participant satisfies such other conditions as the Exchange may prescribe from time to time.

8.2 On receipt of a request under Rule 8.1, the Exchange will process such request and notify the Participant of the effective date of termination of the Participant's trading account. The Exchange may refuse to accept or at any time postpone the termination when there are outstanding obligations that may affect the interest of the Exchange, Issuers and other Participants.

8.3 The Exchange may, at its discretion, suspend or terminate the trading account for any Participant with immediate effect (or with effect from such later time as the Exchange may determine), including:

- (a) where the Exchange determines that the Participant does not meet the continuing obligations required of a Participant;
 - (b) where the Exchange determines that the Participant has contravened the Trading Rules or any applicable laws or regulations;
 - (c) in the event of (where the Participant is an individual) death or bankruptcy of the Participant, or (where the Participant is an entity) winding up or insolvency of the Participant;
 - (d) where the Exchange is required or deems it necessary to comply with applicable laws and regulations; and/or
 - (e) where the Exchange is no longer licensed, approved, registered (or otherwise exempt from licensing, approval and/or registration requirements) to conduct regulated activities.
- 8.4 In the event of a suspension or termination pursuant to Rule 8.3, the Exchange shall notify the Participant of the effective date of suspension or termination. The Participant shall act in accordance with the directives of the Exchange in relation to any outstanding obligations of such Participant, and any Securities in such Participant's account on the ADDX Platform. The Participant shall not trade through its trading account from the date specified by the Exchange.
- 8.5 In the event the Exchange terminates such Participant's trading account and there are balance Securities held by such Participant in its account on the ADDX Platform after the effective date of termination of such Participant's trading account and only insofar as permitted under applicable laws and regulations, such Participant's trading account shall be suspended indefinitely and such Participant shall be permitted to submit sell orders solely for the purpose of divesting balance Securities.
- 8.6 Where a trading account is suspended pursuant to Rule 8.5, an administrative fee as the Exchange may prescribe will be charged for the maintenance of the trading account for such Participant commencing from the date of the commencement of such suspension.
- 8.7 Notwithstanding the termination of a Participant's trading account, the former Participant remains liable to the Exchange and other relevant persons (including other Participants or Issuers) for any liabilities incurred (including under the Trading Rules or otherwise) during the period it held a trading account on the ADDX Platform. It also remains subject to any proceedings, investigations, disciplinary or enforcement action in respect of:
- (a) a right, privilege, obligation or liability acquired, accrued or incurred under the Trading Rules before such termination;
 - (b) a breach of, or act of misconduct under, the Trading Rules before such termination; and/or
 - (c) any disciplinary action or penalty in respect of any breach or act of misconduct committed before such termination.

9. Trading on the ADDX Platform
--

- 9.1 The trading of all Securities shall take place on the ADDX Platform.
- 9.2 Only Participants are able to buy and sell Securities (save that Issuers are able to issue and redeem their respective Securities on the ADDX Platform).
- 9.3 Continuous Trading Phase**
- 9.3.1 Continuous trading is permitted on the ADDX Platform. During continuous trading, Participants may enter, amend and cancel trade orders, prior to matching of trade orders.
- 9.3.2 The ADDX Platform operates on a price-time priority basis. All trade orders will be matched for validation and settlement by the ADDX Platform in accordance with price priority, followed by time priority. Orders submitted for execution will be time-stamped.
- 9.3.3 A trade is completed when trade orders have been matched, validated, and settled on the ADDX Platform. All completed trades will then be recorded on the ADDX Platform. In

accordance with Rule 12.2, all unmatched orders shall remain available for matching on the ADDX Platform until the order is matched or expires.

- 9.3.4 A “buy” trade order will only be accepted for matching if the Participant placing the “buy” trade order has sufficient cash balance in their account on the ADDX Platform to fund the “buy” trade order and the applicable fees for the transaction, for example trading fees and applicable taxes. Payment for Securities shall be effected only by payment in the form of such cash balance.
- 9.3.5 A “sell” trade order will only be accepted for matching if the Participant placing the “sell” trade order has sufficient quantity of the relevant Securities in their account on the ADDX Platform to fund the “sell” trade order. Short selling is not permitted on the ADDX Platform.
- 9.3.6 Once a trade order has been made, the Securities and cash balance for making payment will be earmarked on the ADDX Platform. The earmarked Securities and cash balance will be released and transferred to the relevant Participant’s account on the ADDX Platform once the trade order is subsequently validated and settled on the ADDX Platform. Earmarked Securities and cash balances cannot be used for other trade orders until they are released following settlement.
- 9.3.7 Margin trading and contra trading are not available on the ADDX Platform.
- 9.3.8 Unless otherwise indicated, trading of Securities shall be on a “cum entitlement” basis (i.e. with the entitlement to the economic benefit that has been declared by the relevant Issuer, such as dividends or rights). Where a Security is traded on an “ex entitlement” basis, a buyer of Securities on an “ex entitlement” basis has no right to that entitlement.
- 9.3.9 Each Participant agrees that the matching of trade orders as determined by the ADDX Platform and the Exchange, from time to time, shall be final, and each Participant shall not challenge or dispute the validity of such matching.
- 9.4 Ownership of a Security must be transferable to another Participant via the ADDX Platform without any further formality.
- 9.5 In respect of transfers of Securities which are Custodised Financial Products within the meaning of Paragraph 4A of the Specific Terms set out in the Platform Rules, Participants acknowledge that a trade in respect of such Securities via the ADDX Platform comprises a notification by the Participant placing the “sell” trade order of, or otherwise intention to transfer, its beneficial interest in the underlying CFP Units to another Participant, combined with a request to the Exchange to update its custody register to register such change in holding of beneficial interest.
- 9.6 ADDX reserves the right to reject or remove any Securities from listing on the ADDX Platform.

10. Trading and Orders

10.1 Trading Hours

- 10.1.1 The trading hours and application of the market phases are as published by the Exchange. The Exchange may vary the trading hours and application of the market phases.
- 10.1.2 The market phases are as follows:
 - (a) Pre-Open/Pre-Close
This phase allows order entry, order modification, and withdrawal of orders but no matching of orders.
 - (b) Non-Cancel
This phase does not allow order entry and amendment. All existing orders are matched according to the algorithm set by the Exchange. All unmatched orders, except at the close of trading, are carried over to the next phase. As at close of trading, unmatched orders with an expiry date in the future, shall be carried over to the next trading day.
 - (c) Trading
This phase allows order entry, order modification, and withdrawal of orders. All orders are matched in accordance with price-time priority.

(d) Adjust

This phase allows order entry, order modification, and withdrawal of orders. At the end of the phase, orders will be matched based on the algorithm set by the Exchange. All unmatched orders will be carried over to the next phase.

10.2 Securities issuances

10.2.1 A Participant eligible for participation in the Securities issuance will be granted permission to access the information memorandum and other documents relating to the Securities issuance.

10.2.2 Purchase requests are made by Participants via the ADDX Platform and are subject to the Specific Terms set out in the Platform Rules.

10.2.3 Each Participant acknowledges that it has, and for all purposes each Participant shall be deemed to have, personal knowledge of every order placed through its trading account in relation to Securities issuances, including the bid price, quantity, and any other information which may be entered or otherwise given through the ADDX Platform.

10.3 Secondary trading

10.3.1 All trade orders for Securities shall be placed through the ADDX Platform.

(a) When a Participant enters a “sell” trade order, such selling Participant agrees that such order constitutes an offer to the buying Participant whose “buy” trade order is matched to, and the selling Participant agrees to sell the relevant Securities to such buying Participant at the price and for the quantity, both determined by the algorithm set by the Exchange; and

(b) When a Participant enters a “buy” trade order, such buying Participant agrees that such order constitutes a legally binding acceptance of the then-current unfilled offer from the Participant whose “sell” trade order is matched, and the buying Participant agrees to buy the relevant Securities from such selling Participant at the price and for the quantity, both determined by the algorithm set by the Exchange.

10.3.2 Each trade order entered into the ADDX Platform shall specify the price and quantity of the trade order, whether it is a “buy” or “sell” trade order, the ticker of the relevant Securities and all other information as may be prompted by the ADDX Platform. Each Participant shall be responsible for ensuring the accuracy of each order submitted under its trading account.

10.3.3 A trade order accepted for matching through an order placed via the EAM Portal (“**EAM Order**”) will be allocated to the EAM User’s end client Participants in accordance with the following logic:

(a) first, on a pro-rata allocation basis based on the proportion that each Participant’s order quantity bears to the entire order quantity of the EAM Order, rounded down to the nearest minimum order size of the relevant Securities;

(b) second, on an equal allocation basis amongst the Participants with the highest order quantities, rounded down to the nearest minimum tick size of the relevant Securities ; and

(c) thereafter, should any Securities remain to be allocated, on a random allocation basis amongst the Participants.

10.3.4 The minimum order size shall be the higher of:

(a) 0.001 of a Security (or 1 Security if no decimals are set); and

(b) (i) if the Security is denominated in a fiat currency other than Japanese Yen, 100 of the major currency unit of such fiat currency; or
(ii) if the Security is denominated in Japanese Yen, 10,000 Japanese Yen.

10.3.5 The minimum tick size for a Security is:

(a) if the Security is denominated in a fiat currency other than Japanese Yen, 0.01 of the major currency unit of such fiat currency; or

(b) if the Security is denominated in Japanese Yen, 1 Japanese Yen.

- 10.3.6 Where all required information (as set out in Rule 10.3.2) is duly provided to the Exchange and there are sufficient assets to fund the trade order placed, the Exchange's price-time algorithm will match the orders with prices in the market. If, for any reason, the matched trade orders are not validated by the ADDX Platform (for example due to a Participant being ineligible to make the trade due to transfer restrictions), the Participants to the matched trade orders will be notified of this. The reason(s) for the Participant's ineligibility may, but will not necessarily, be provided.
- 10.3.7 In respect of trade orders (or part thereof) that are matched but not validated by the ADDX Platform, the trade order (or part thereof) with the higher time priority will remain in the continuous order book and be available for matching while the trade order (or part thereof) with the lower time priority will be cancelled.
- 10.3.8 Although the Exchange will endeavour to make any allocation required in relation to any Securities amongst Participants in accordance with its pre-determined methodology, the Exchange reserves the right to make allocations in such manner as it determines in its reasonable discretion. Accordingly, each Participant acknowledges and agrees that, if it has placed a trade order in respect of any Securities (or a trade order has been placed on its behalf), it may not be allocated the full quantum as specified in the trade order. The Exchange will not accept requests to alter or waive allocations after the event. Any allocation given by the Exchange shall be binding on Participants, notwithstanding any change in market conditions between the time of the making of the trade order and the allocation or any other circumstances.

10.4 Order types and validities

- 10.4.1 The following types of trade orders are available on the ADDX Platform to all Participants.

(a) Market order:

A trade order that executes against accessible liquidity on the opposite side of the market at the prevailing market price; or

(b) Limit order:

A trade order that executes only at the specified price or at a price better than the specified price. Unfilled quantities of the trade order remain in the continuous order book until they are filled, amended, or cancelled. A "sell" trade order price cannot be made at a price below the best bid price available. A "buy" trade order input price cannot be made at a price above the best ask price available.

- 10.4.2 The following types of trade orders shall have the following order validities:

<u>Trade order type</u>	<u>Trade order validity</u>	<u>Description of order validity</u>
Market order	Fill and Kill	A market order is filled immediately against resting trade orders at the current best available price, with the unfilled portion of the market order cancelled immediately
Limit order	Good-Till-Date	The limit order remains available for matching until the earlier of the limit order being executed or cancelled, or the end of the trading session on the date specified by the Participant. The maximum Good-Till-Date date that can be specified by the Participant shall be no later than 30 calendar days from the date of the limit order

10.5 Withdrawing trade orders

- 10.5.1 A trade order may be withdrawn by the Participant making the trade order at any time between placement of the trade order and the matching of the orders.
- 10.5.2 The Exchange may, at its discretion, review the validity or, and/or reverse or otherwise cancel, any trade order, including in any of the following circumstances:
- (a) where the Exchange deems it necessary for the proper maintenance of a fair and orderly market;
- (b) there has been a technical and/or system failure and/or error leading to the trade order confirmation;

- (c) there is *prima facie* evidence of fraud or wilful misrepresentation in relation to the trade order;
- (d) in the Exchange's opinion, it is desirable to cancel the trade order to protect the integrity and reputation of the ADDX Platform and the Exchange (including where a Participant and/or Issuer has engaged or attempted to engage in any prohibited trading conduct);
- (e) in the event of a trading suspension; or
- (f) in the event of a suspension or termination of the relevant Participant's account on the ADDX Platform.

10.5.3 Each Participant agrees that any decision made by the Exchange in connection with this Rule 10.5.3 is conclusive and binding on such Participant, unless and until otherwise determined by the Exchange, and each Participant shall not challenge or dispute the validity of such decision and the Exchange shall not be obliged to give any reasons for its decision.

10.6 Amending trade orders

10.6.1 A trade order may be amended (in whole or in part) by the Participant making the trade order at any time between placement of the trade order and the matching of the orders.

10.6.2 The time priorities of such Participant's amended trade orders (or part thereof) will be newly assigned or maintained as follows:

- (a) where the quantity of the trade order is increased, the trade order will be assigned a new time priority;
- (b) where the quantity of the trade order is decreased, the trade order will maintain its existing time priority; and
- (c) where the price of the trade order is increased or decreased, the trade order will be assigned a new time priority.

10.6.3 For the avoidance of doubt, each Participant acknowledges that an order amendment cannot be made where the trade order (or part thereof) has already been matched on the ADDX Platform and in the case of an amendment to the price of the trade order, where the trade order is partially fulfilled.

11. Finality, Reversal of Trades and Error Trades
--

11.1 All trades are final and binding on the Participants to the trade, except where provided for in this Rule 11. Participants shall honour all trades, unless and until the trade is reversed in accordance with this Rule 11.

11.2 Cancellation of trades

11.2.1 The Exchange may, at its own discretion, review the validity of and/or reverse any trade, including in any of the following circumstances:

- (a) where the Exchange deems it necessary for the proper maintenance of a fair and orderly market;
- (b) there has been a technical and/or system failure and/or error leading to the trade;
- (c) the Exchange determines that an error trade should be reversed under Rule 11.3;
- (d) there is *prima facie* evidence of fraud or wilful misrepresentation in relation to the trade; or
- (e) in the Exchange's opinion, it is desirable to reverse the trade to protect the integrity and reputation of the ADDX Platform and the Exchange (including where a Participant and/or Issuer has engaged or attempted to engage in any prohibited trading conduct); or
- (f) pursuant to Rule 20.

11.2.2 The Exchange shall provide notice of the reversal to affected Participants as soon as practicable via the ADDX Platform.

11.2.3 The Exchange may impose any conditions it thinks appropriate for the reversal of a trade.

- 11.2.4 The Exchange may impose any disciplinary action it thinks appropriate on a Participant who is the cause or partial cause of the reversal of a trade.
- 11.2.5 Each Participant agrees that any decision made by the Exchange in connection with this Rule 11.2 is conclusive and binding on such Participant, unless and until otherwise determined by the Exchange, and each Participant shall not challenge or dispute the validity of such decision and the Exchange shall not be obliged to give any reasons for its decision.
- 11.3 Error trades**
- 11.3.1 If an error trade occurs, a Participant who is party to the error trade may request that the Exchange reverse the error trade. The request shall be submitted in the form prescribed by the Exchange within 60 minutes of the time the trade occurred, and shall include information concerning the trade and the factual basis for believing that the trade is erroneous.
- 11.3.2 Upon receipt of a request to reverse the error trade, the Exchange shall notify the counterparty to the error trade of such request. Save as provided in Rule 11.3.4, the Exchange will reverse the error trade only if both parties to the error trade agree to such reversal and if there are sufficient Securities and cash balance in the relevant accounts on the ADDX Platform on the dates prescribed by the Exchange for such reversal. The Participants to an error trade will receive a trade confirmation via the ADDX Platform upon the completion of the reversal. An administrative fee as the Exchange may prescribe will be charged to the Participant making the request for the reversal of the error trade.
- 11.3.3 Notwithstanding Rule 11.3.1 and 11.3.2, the Exchange may, at its discretion, identify and review trades to determine whether such trades are error trades, even if there has been no request for a reversal made by a Participant.
- 11.3.4 If the Exchange determines that the trade is an error trade (for example, due to a technical and/or system failure), it may, at its discretion, reverse the error trade in accordance with Rule 11.2. Each Participant agrees that any decision made by the Exchange on whether a trade is an error trade or not is conclusive and binding on such Participant and each Participant shall not challenge or dispute the validity of such decision, and the Exchange shall not be obliged to give any reasons for its decision.

12. Settlement

- 12.1 The settlement of trade orders on the ADDX Platform will be followed by recording of the settlement on the ADDX Platform.
- 12.2 Once a trade is completed in accordance with Rule 9.3.3, the following actions take place instantaneously and simultaneously for recording purposes:
- (a) in respect of the Participant who had placed the buy order, the applicable cash balance is debited from its account on the ADDX Platform and the applicable quantity of the relevant Securities is credited into its account on the ADDX Platform;
 - (b) in respect of the Participant who had placed the sell order, the applicable quantity of the relevant Securities is debited from its account on the ADDX Platform and the applicable cash balance is credited into its account on the ADDX Platform; and
 - (c) the transaction is recorded on the ADDX Platform.
- 12.3 The Participants will receive a trade confirmation via the ADDX Platform which shall be sufficient evidence of the completed trade. Completed trades will also be reflected in the Participant's updated account records and transaction history on the ADDX Platform.
- 12.4 The Participants must pay such fees and charges as the Exchange may prescribe in relation to trading. The Exchange may waive or vary any such fee or charge.
- 12.5 The account balances of Participant(s) and Issuer(s) in the transaction will be adjusted to reflect their participation.
- 12.6 Settlement failure**
- 12.6.1 If settlement is prevented by technical or system failure and/or error on the ADDX Platform, the Exchange shall notify Participants of the problem via the ADDX Platform (or via SMS to the

contact details registered with the Exchange or such other means as the Exchange deems appropriate) as soon as practicable.

12.6.2 Upon the resolution of the problem, the Exchange shall:

- (a) notify Participants of the resolution of the problem;
- (b) use best endeavours to conduct periodic reconciliation and settlement of trade orders that were affected by the problem;
- (c) cancel trade orders that cannot be reconciled and/or settled; and
- (d) notify Participants of the outcome of the reconciliation and settlement and whether affected trade orders have been settled or cancelled.

13. Availability of pre-trade and post-trade information

13.1 The Exchange will make available to all Participants via the ADDX Platform the following information:

- (a) the existing bids and offers in the current order book, including the bid/offer price and quantity of such offers;
- (b) the price, volume and time of trades, which will be made available within one (1) hour following each trade, for the last 100 transactions or all trades; and
- (c) consolidated information on the Securities holdings of all Participants.

14. System management

14.1 General monitoring & oversight

14.1.1 The Platform Requirements and other policies and procedures that the Exchange may institute will collectively set out the general conduct requirements of Participants and Issuers on the ADDX Platform.

14.1.2 The Exchange uses tools including activity reports, filters, and blocks to monitor the compliance of Participants and Issuers on the ADDX Platform with its agreements, the Platform Requirements and all applicable laws and regulations.

14.1.3 In using the ADDX Platform, Participants agree to such monitoring and the methods for carrying out such monitoring.

14.1.4 Particular attention will be paid to Participants' trading activities and the performance and security of the market as a whole to detect possible trading irregularities and other abusive or prohibited conduct.

14.2 Trade surveillance & monitoring processes

14.2.1 The Exchange implements trade surveillance and monitoring processes in order to prevent, as far as possible, market abuse and market manipulation on the ADDX Platform. These processes focus on Participants and the Securities, and enable the Exchange to oversee the trading activities of Participants on the ADDX Platform for the purposes of detecting and addressing suspected, alleged, or actual prohibited market conduct.

14.2.2 Without prejudice to the generality of Rule 20, in addition to initiating primary investigations, the Exchange may impose other measures on Participants involved in prohibited market conduct. This includes suspending trading in certain Securities or the participation of certain persons in activities on the ADDX Platform in accordance with Rule 16. - (d) All unmatched orders will be carried forward to the next trading session.
- (e) When the end of the Adjust Phase coincides with the Opening Routine or Closing Routine, orders entered are carried forward into and matched accordingly in the respective Opening Routine or Closing Routine.

*The end of the Adjust Phase and the commencement of the Non-Cancel Phase is designed to be random to reduce risk of price manipulation.

4. Algorithm for Equilibrium Price

- 4.1 The methodology for computing the single price at which orders at the end of the Opening Routine, Closing Routine and Adjust Phase are matched ("**Equilibrium Price**") is as follows:

- (a) The Equilibrium Price is the price that has the largest tradeable volume (being the lower of the accumulative bid volume and ask volume at a certain price).

Bid Volume	Price (\$)	Ask Volume	Cumulative Bid Volume (a)	Cumulative Ask Volume (b)	Tradable Volume (lower of (a) and (b))	Imbalance [(a)-(b)]	Pressure
15	1.12	0	75	0	0	75	Buy
15	1.13	0	60	0	0	60	Buy
0	1.14	10	45	10	10	35	Buy

Bid Volume	Price (\$)	Ask Volume	Cumulative Bid Volume (a)	Cumulative Ask Volume (b)	Tradable Volume (lower of (a) and (b))	Imbalance [(a)-(b)]	Pressure
20	1.15	20	45	30	30	15	Buy
25	1.16	0	25	30	25	5	Sell
0	1.17	10	0	40	0	40	Sell

Equilibrium Price is \$1.15.

- (b) If there is more than one price with the same largest tradeable volume the Equilibrium Price is the one with the lowest order imbalance (where imbalance refers to the net difference between cumulative bid and ask volume).

Bid Volume	Price (\$)	Ask Volume	Cumulative Bid Volume (a)	Cumulative Ask Volume (b)	Tradable Volume (lower of (a) and (b))	Imbalance [(a)-(b)]	Pressure
10	1.12	0	50	0	0	50	Buy
0	1.13	0	40	0	0	40	Buy
0	1.14	30	40	30	30	10	Buy
0	1.15	25	40	55	40	15	Sell
40	1.16	5	40	60	40	20	Sell
0	1.17	0	0	60	0	60	Sell
0	1.18	10	0	70	0	70	Sell

Equilibrium Price is \$1.15.

- (c) If market orders are present and the market order volume on one side exceeds the cumulative order volume on the opposite side, there would be a market order surplus – meaning that the lowest imbalance occurs at the market price. If so, the Equilibrium Price would be one tick above the side with the market order surplus.

Bid Volume	Price (\$)	Ask Volume	Cumulative Bid Volume (a)	Cumulative Ask Volume (b)	Tradable Volume (lower of (a) and (b))	Imbalance [(a)-(b)]	Pressure
0	1.12	10	50	10	10	40	Buy
0	1.13	0	50	10	10	40	Buy
0	1.14	10	50	20	20	30	Buy
10	1.15	0	50	20	20	30	Buy
0	1.16	0	40	20	20	20	Buy
10	1.17	0	40	20	20	20	Buy
0	1.18	0	30	20	20	10	Buy
30	MKT		30	20	20	10	Buy

In the above example, the market surplus order is on the buy side and the Equilibrium Price will be set at one tick above the highest buy limit order.

Bid Volume	Price (\$)	Ask Volume	Cumulative Bid Volume (a)	Cumulative Ask Volume (b)	Tradable Volume (lower of (a) and (b))	Imbalance [(a)-(b)]	Pressure
0	MKT	30	20	30	20	10	Sell
0	1.12	0	20	30	20	10	Sell
0	1.13	10	20	40	20	20	Sell

0	1.14	0	20	40	20	20	Sell
0	1.15	10	20	50	20	30	Sell
10	1.16	0	20	50	20	30	Sell
0	1.17	0	10	50	10	40	Sell
10	1.18	0	10	50	10	40	Sell

In the above example, the market surplus order is on the sell side and the Equilibrium Price will be set at one tick below the lowest sell limit order.

- (d) If the largest tradeable volume and lowest order imbalance occur at more than one price, the Equilibrium Price will be determined by:

- (i) with only buy pressure within the overlap, the Equilibrium Price is the highest price within the price overlap;

Bid Volume	Price (\$)	Ask Volume	Cumulative Bid Volume (a)	Cumulative Ask Volume (b)	Tradable Volume (lower of (a) and (b))	Imbalance [(a)-(b)]	Pressure
0	1.12	10	260	10	10	250	Buy
0	1.13	20	260	30	30	230	Buy
50	1.14	50	260	80	80	180	Buy
0	1.15	110	210	190	190	20	Buy
90	1.16	0	210	190	190	20	Buy
30	1.17	40	120	230	120	110	Sell
90	1.18	20	90	250	90	160	Sell

Equilibrium Price is \$1.16.

- (ii) with only sell pressure within the overlap, the Equilibrium Price is the lowest price within the price overlap;

Bid Volume	Price (\$)	Ask Volume	Cumulative Bid Volume (a)	Cumulative Ask Volume (b)	Tradable Volume (lower of (a) and (b))	Imbalance [(a)-(b)]	Pressure
20	1.12	90	250	90	90	160	Buy
40	1.13	30	230	120	120	110	Buy
0	1.14	90	190	210	190	20	Sell
110	1.15	0	190	210	190	20	Sell
50	1.16	50	80	260	80	160	Sell
20	1.17	0	30	260	30	230	Sell
10	1.18	0	10	260	10	250	Sell

Equilibrium Price is \$1.14.

- (e) If the largest tradeable volume and lowest order imbalance occur at more than one price and there is both buy and sell pressure or nil pressure within the price overlap, the Equilibrium Price is:

- (i) the price within the price overlap that is closest to the last traded price;
- (ii) where there is no last traded price, the lowest price within the price overlap.

Bid Volume	Price (\$)	Ask Volume	Cumulative Bid Volume (a)	Cumulative Ask Volume (b)	Tradable Volume (lower of (a) and (b))	Imbalance [(a)-(b)]	Pressure
0	1.12	10	260	10	10	250	Buy

0	1.13	20	260	30	30	230	Buy
50	1.14	50	260	80	80	180	Buy
0	1.15	130	210	210	210	0	Nil
90	1.16	0	210	210	210	0	Nil
30	1.17	0	120	210	120	90	Sell
90	1.18	0	90	210	90	120	Sell

In this example, assuming the last traded price was \$1.17, the Equilibrium Price would be \$1.16. If there was no last traded price, the Equilibrium Price would be \$1.15.

ADDX Trading Rules**Practice Note 14.1 – Monitoring Unusual Trading Activity**

Issue date	Cross references
Version: 19 January 2021	Trading Rule 14.2
Updated: 23 November 2025	

1. Introduction

This Practice Note explains the role of the surveillance function (“**Surveillance**”) and the procedures typically employed when an Issuer or Participant is queried regarding trading in its Securities or trading activities on the ADDX platform. Surveillance may result in measures being imposed on an Issuer or Participant to address suspected, alleged, or actual prohibited market conduct.

2. Unusual Trading Activity

2.1 Unusual trading activity, without it being apparent that publicly available information could account for the activity, may signify trading by persons who are acting on unannounced material information or on a rumour or report, whether true or false.

2.2 The unusual market activity may not be traceable directly to unannounced information or to a rumour or report. Nevertheless, the market activity itself may be misleading to Participants, who may assume that a sudden and appreciable change in the price of, or volume traded in, the Issuer’s Securities reflects a corresponding change in its business or prospects.

3. Role of Surveillance

3.1 The Trade Surveillance and Monitoring Team (“**TS&M**”) monitors market trades and orders to identify unusual trends and patterns of an Issuer’s Securities. Review of public information, company specific news, industry trends, economic factors or prevailing market sentiment will be made to see if such unusual activity can be explained.

3.2 For Issuers, if there is no apparent explanation, the Exchange requires the Issuer to clarify the circumstances surrounding the unusual trading activity and to inform the public on whether it is aware of any material information that might reasonably be expected to have a significant effect on the trading volume or price of its Securities. Queries may be made by the Exchange to the Issuer regarding unusual trading activity. All queries shall be posted on the ADDX Platform. All efforts will be made to contact the Issuer to alert the Issuer to the Exchange’s query.

3.3 For Participants, if there is no apparent explanation, the Exchange may issue queries to the Participant. All efforts will be made to contact the Participant to alert the Participant to the Exchange’s query.

3.4 A Participant is expected to respond to a query as soon as possible.

4. Response on Receiving a Query on Unusual Trading Activity

4.1 An Issuer is expected to respond to a query as soon as possible. Issuers should ensure that they are operationally ready to respond promptly. Issuers must, upon receiving a query from the Exchange, immediately undertake an enquiry to ascertain the cause of the unusual trading activity. Issuers should have in place, procedures to ensure that the enquiry is carried out efficiently, systematically and promptly so that the Issuer is able to disseminate all material information as soon as possible.

4.2 An Issuer is expected to make clarifications where necessary for Participants to have clarity on the state of affairs of the Issuer. If the Issuer is unable to determine the cause of the unusual trading activity, the issuer may make an announcement via ADDX Platform to the effect that there have been no undisclosed recent developments affecting the Issuer or its affairs which would account for the unusual trading activity.

4.3 An Issuer may also wish to, where appropriate, request a suspension of trading in its Securities or a trading halt. Where possible, an Issuer should inform Participants when it can respond to the Exchange’s query and when the suspension or trading halt is expected to be lifted.

- 4.4 The directors of the Issuer must collectively and individually take responsibility for the accuracy of the replies provided to the Exchange with regard to its query.
